

Hello, I'm **Kaan Fırat**, Jr. Android Developer  
based in Ankara.

## Projects

User interfaces and projects I do in my spare time.

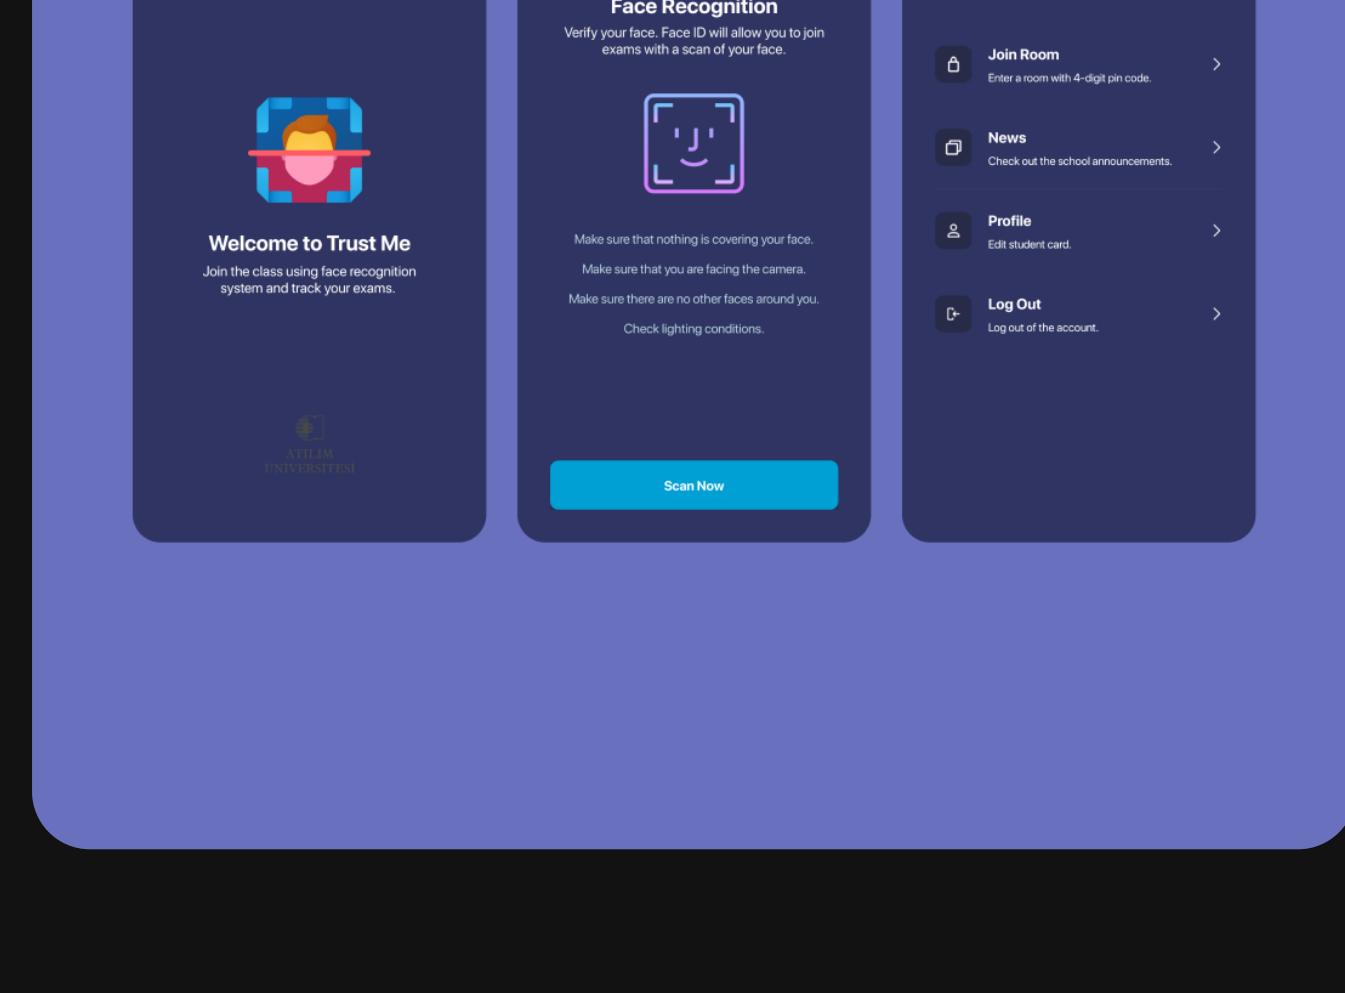

### Crewl

UI & UX design for a social game application.  
Personal conceptual side project.

### TrustMe

UI & UX design for a face recognition application.  
**TrustMe** project is properly designed to be used with Android devices as a mobile application, for taking instant attendance with face recognition in the classrooms.

### Friendpie

UI & UX design for a social networking platform.  
**Friendpie** matches people with common interests and hobbies.  
This project has been stopped and will continue again soon.
